Art Unit: 3634

1. Claims 1-3 are rejected as failing to define the invention in the manner required by 35 U.S.C. 112, second paragraph.

These claims are replete with language for which its intended meaning is not understood and further are replete with idiomatic/grammatical errors. For example: claim 1, line 2 "unitarily knitted", line 3 "the said loops"; claim 2, line 1 "As mentioned in Claim 1 of the window blinds slat structure of the invention", line 2 "the said", lines 2-3 which attempts to define the dimensions of the slat with the long rods, wherein, the long rods are not positively claimed elements of the invention; claim 3, line 1 in its entirety, lines 4-5 "the said", line 6 "the said", line 7 "the said", line 8 "effectively serving".

These claims are replete with terminology for which there is no antecedent basis. For example: claim 1, line 2 "the warp yarns" and "the weft yarns", line 3 "the two sides"; claim 3, line 3 "the twisted threads", line 4 "the one side of the said slat", line 5 "the anterior extent", line 7 "the interstices".

Furthermore, these claims are narrative in form and replete with functional or operational language. The structure which goes to make up the device must be clearly and positively specified. The structure must be organized and correlated in such a manner as to present a complete operative device.

2. The following prior art made of record and not relied upon is considered pertinent to applicant's disclosure: Shields, Burns, Zorbas, Bressler, Hsu, Kandel '515 and '490, Pinto, Warren, Tuzmen, Cohen.
